ERD Resources

An Entity Relationship Diagram is a standard modeling notation for information models.

1. This resource provides an overview of conceptual, relational, and physical models as well as the symbols and Crow's foot notation.
   https://www.lucidchart.com/pages/ER-diagram-symbols-and-meaning

2. This resource shows both Crow's foot and Chen's notation.http://www.conceptdraw.com/examples/er-diagram-cheat-sheet

3. This resource covers the symbols and several styles of notation. (But we will only be using Crow's foot or Chen's notation.) In addition, it provides a guide to thinking through an ERD diagram.
